Family Action Plan for Arthur Bell

Prepared for Claire Bell, niece

Date	22 September 2026
Plan version	Version 1.0
Plan reference	AP-AB8603

This plan contains personal information. Please share it only with people involved in Arthur's care.

Your plan at a glance

KEY PRIORITIES

- Now** Get the right help at home
- Now** Get a needs assessment
- Now** Plan a safe return home
- Soon** Make the home safer
- Soon** Reduce the risk of another fall

WHAT NEEDS ATTENTION

- Get the right help at home
- Get a needs assessment
- Plan a safe return home

21 actions in this plan, 9 to start now.

RECOMMENDED NEXT STEP

List the daily tasks that need help (this week)

Your top priorities

- 1 Get the right help at home** **Now**
Arthur currently has no regular support.
- 2 Get a needs assessment** **Now**
Arthur has not had a needs assessment yet.
- 3 Plan a safe return home** **Now**
Arthur is in hospital after a hip fracture from a fall, with discharge expected on 29 September 2026.
- 4 Make the home safer** **Soon**
Arthur lives alone, so there may be no one nearby if something goes wrong.
- 5 Reduce the risk of another fall** **Soon**
Arthur has had one fall in the last 12 months.

What you told us

Arthur Bell, 86, lives alone in a unit in Palmerston North.

Arthur needs help to move around and has had one fall in the past year.

Health conditions include hip fracture (recovering) and heart failure.

The family has noticed some mild memory changes.

Arthur is currently in hospital after a hip fracture from a fall.

Current support: no regular support.

What matters most: get back home safely.

Recommended next steps

PRIORITY	ACTION	WHO	WHEN
Now			
Now	List the daily tasks that need help Note what is hard each day (showering, meals, shopping, medicines) so support can be matched to real needs.	Claire Bell	This week
Now	Ask the pharmacy about blister packs Pre-packed medicines by day and time reduce missed or doubled doses.	Family with the pharmacist	Within 2 weeks
Now	Compare private home support while waiting If funded help will take time, a few privately paid hours can bridge the gap.	Family	Within a month
Now	Ask the GP for a NASC referral Request a needs assessment and explain the main concerns in this plan.	Claire Bell	This week
Now	Prepare for the assessment Write down the hardest parts of each day, recent events and what the family can and cannot do.	Family	Before the assessment
Now	Ask for a discharge planning conversation Meet the ward team before discharge to agree support, equipment and follow-up.	Claire Bell	Before discharge
Now	Confirm support is in place for the first two weeks Check who visits, when, and what happens if support does not arrive.	Family with the discharge planner	Before discharge
Now	Check medicines against the discharge letter Remove stopped medicines from the home and ask the pharmacist to review the new list.	Family with the pharmacist	First day home

PRIORITY	ACTION	WHO	WHEN
Now	Book a GP falls review Ask for a medication review and checks of eyesight, blood pressure and feet.	Claire Bell	Within 2 weeks
Soon			
Soon	Arrange a personal alarm Ask the GP whether a funded personal alarm is available, or compare private monitored alarms.	Family with the GP	Within 2 weeks
Soon	Walk through the home for hazards Check lighting, loose mats, clutter on floors, and how easy it is to get in and out of the shower and bed.	Family	Within a month
Soon	Start a strength and balance programme Find a local class or ask for a referral to an in-home programme.	Arthur with family support	Within a month
Soon	Ask for an occupational therapy home assessment An occupational therapist can recommend rails, seating and changes that make moving around safer.	Family with the GP	Within a month
Soon	Check current entitlements Ask Work and Income which allowances apply, such as help with extra costs from a health condition.	Claire Bell	Within a month
Soon	Check eligibility for Total Mobility Ask the GP or a local agency about an assessment.	Family	Within a month
Soon	Fit bathroom rails and a shower seat The bathroom is the most common place for falls at home.	Family	Within a month
Plan ahead			
Plan ahead	Start an advance care plan Talk with Arthur and the GP about what matters most, and write it down.	Arthur with the GP	Within 3 months
Plan ahead	Write a simple money snapshot List income, savings, regular costs and the value of the home, so options can be compared.	Family or EPOA attorney	Within a month
Plan ahead	Find one regular weekly activity A club, class, church group or day programme that Arthur would enjoy.	Family	Within 2 months
Plan ahead	Check hearing and eyesight Untreated hearing or vision loss often makes social contact harder.	Arthur with family	Within 3 months

PRIORITY	ACTION	WHO	WHEN
Plan ahead	Make a one-page emergency sheet List medicines, conditions, allergies and contacts, and keep it on the fridge.	Family	Within 2 weeks

Your action plan, by topic

Only the topics that apply to Arthur are included.

Home care and support

Now

WHAT WE NOTICED

- Arthur currently has no regular support.
- Arthur needs help with moving around, which makes personal care and daily tasks harder.
- Taking medicines correctly has become difficult without help.

WHY THIS MATTERS

The right mix of help, from a few hours of household support to daily personal care, is often what makes staying at home possible and safe.

WHAT TO DO NEXT

- ☐ **List the daily tasks that need help** · This week · Claire Bell
Note what is hard each day (showering, meals, shopping, medicines) so support can be matched to real needs.
- ☐ **Ask the pharmacy about blister packs** · Within 2 weeks · Family with the pharmacist
Pre-packed medicines by day and time reduce missed or doubled doses.
- ☐ **Compare private home support while waiting** · Within a month · Family
If funded help will take time, a few privately paid hours can bridge the gap.

WHO MAY BE ABLE TO HELP

Needs Assessment and Service Coordination (NASC) · GP · Home support providers · Pharmacist

QUESTIONS WORTH ASKING

NASC

- What funded home support could Arthur be eligible for, and how long is the wait?

Pharmacist

- Could medicines be supplied in blister packs, and can the pharmacy review them?

USEFUL INFORMATION

Funded support starts with an assessment ^[1]

Health New Zealand funds home support for eligible older people after a needs assessment by the local NASC service. A GP can make the referral.

OPTIONS THAT MAY SUIT

Shown because they match Arthur's criteria, not as recommendations. Sample providers for testing.

Plainsview Home Support

Matches: Location: Manawatū-Whanganui; Availability: vacancy or capacity now

Needs assessment

Now

WHAT WE NOTICED

- Arthur has not had a needs assessment yet.

WHY THIS MATTERS

Most funded support for older people in New Zealand, including home support, carer relief and residential care subsidies, starts with a needs assessment by the local NASC service.

WHAT TO DO NEXT

- ☐ **Ask the GP for a NASC referral** · This week · Claire Bell

Request a needs assessment and explain the main concerns in this plan.

- ☐ **Prepare for the assessment** · Before the assessment · Family

Write down the hardest parts of each day, recent events and what the family can and cannot do.

WHO MAY BE ABLE TO HELP

GP · NASC service · Hospital social worker

QUESTIONS WORTH ASKING

GP

- Can you refer Arthur for a needs assessment, and how urgent should we say it is?

NASC

- Can family be present at the assessment, and what should we bring?

USEFUL INFORMATION

How assessments work ^[1]

A NASC assessor visits to understand daily needs, health and support, then coordinates the services the person is eligible for.

Hospital discharge

Now

WHAT WE NOTICED

- Arthur is in hospital after a hip fracture from a fall, with discharge expected on 29 September 2026.

WHY THIS MATTERS

The first weeks after hospital carry the highest risk of another admission. A clear plan for support, medicines and follow-up makes a safe return much more likely.

WHAT TO DO NEXT

- ☐ **Ask for a discharge planning conversation** · Before discharge · Claire Bell
Meet the ward team before discharge to agree support, equipment and follow-up.
- ☐ **Confirm support is in place for the first two weeks** · Before discharge · Family with the discharge planner
Check who visits, when, and what happens if support does not arrive.
- ☐ **Check medicines against the discharge letter** · First day home · Family with the pharmacist
Remove stopped medicines from the home and ask the pharmacist to review the new list.

WHO MAY BE ABLE TO HELP

Ward discharge planner · Hospital social worker · GP · NASC

QUESTIONS WORTH ASKING

Hospital team

- What support will Arthur need at home, and who will arrange it before discharge?
- Which medicines have changed, and why?
- What follow-up appointments are booked, and who do we call if things go wrong?

OPTIONS THAT MAY SUIT

Shown because they match Arthur's criteria, not as recommendations. Sample providers for testing.

Plainsview Home Support

Matches: Location: Manawatū-Whanganui; Availability: vacancy or capacity now

Staying safely at home

Soon

WHAT WE NOTICED

- Arthur lives alone, so there may be no one nearby if something goes wrong.
- You mentioned: shower over the bath.
- Arthur does not have a personal alarm to call for help.

WHY THIS MATTERS

Small changes at home, such as working alarms, good lighting and a way to call for help, prevent many emergencies and make it more likely someone can keep living at home.

WHAT TO DO NEXT

- ☐ **Arrange a personal alarm** · Within 2 weeks · Family with the GP
Ask the GP whether a funded personal alarm is available, or compare private monitored alarms.
- ☐ **Walk through the home for hazards** · Within a month · Family
Check lighting, loose mats, clutter on floors, and how easy it is to get in and out of the shower and bed.

WHO MAY BE ABLE TO HELP

Family and neighbours · GP or practice nurse · Occupational therapist · Fire and Emergency New Zealand

QUESTIONS WORTH ASKING

GP

- Would Arthur qualify for a funded personal alarm, and how do we arrange it?

Occupational therapist

- Which changes in the home would make the biggest difference to safety?

Falls and mobility

Soon

WHAT WE NOTICED

- Arthur has had one fall in the last 12 months.
- Arthur is worried about falling, which can lead to moving less and becoming weaker.

WHY THIS MATTERS

One fall makes another more likely. Many falls can be prevented with a medication review, strength and balance exercise, and a safer home.

WHAT TO DO NEXT

- ☐ **Book a GP falls review** · Within 2 weeks · Claire Bell
Ask for a medication review and checks of eyesight, blood pressure and feet.
- ☐ **Start a strength and balance programme** · Within a month · Arthur with family support
Find a local class or ask for a referral to an in-home programme.
- ☐ **Ask for an occupational therapy home assessment** · Within a month · Family with the GP
An occupational therapist can recommend rails, seating and changes that make moving around safer.

WHO MAY BE ABLE TO HELP

GP · Physiotherapist · Occupational therapist · Live Stronger for Longer classes

QUESTIONS WORTH ASKING

GP

- Could any of Arthur's medicines be adding to dizziness or falls?
- Should eyesight, blood pressure or bone health be checked after these falls?

Physiotherapist

- Which strength and balance programme suits Arthur now?

USEFUL INFORMATION

Strength and balance ^[4]

Live Stronger for Longer lists community strength and balance classes around New Zealand, and GPs can refer people to an in-home programme.

Government funding

Soon

WHAT WE NOTICED

- The family has some concerns about the cost of care.

WHY THIS MATTERS

Several government subsidies depend on assessments and applications that take time. Starting early avoids paying costs that could have been covered.

WHAT TO DO NEXT

- ☐ **Check current entitlements** · Within a month · Claire Bell

Ask Work and Income which allowances apply, such as help with extra costs from a health condition.

WHO MAY BE ABLE TO HELP

Work and Income · NASC · Budgeting services · Lawyer or financial adviser

QUESTIONS WORTH ASKING

Work and Income

- Which subsidies or allowances could Arthur be eligible for now?

NASC

- Does Arthur's assessed level of care allow a subsidy application?

Transport

Soon

WHAT WE NOTICED

- Getting to appointments and shops has become difficult.

WHY THIS MATTERS

Losing transport often leads to missed appointments and isolation. Subsidised options can keep someone independent.

WHAT TO DO NEXT

- ☐ **Check eligibility for Total Mobility** · Within a month · Family

Ask the GP or a local agency about an assessment.

WHO MAY BE ABLE TO HELP

Total Mobility agencies · Community transport services · GP (for driving fitness)

QUESTIONS WORTH ASKING

GP

- Is Arthur still safe to drive, and should a driving assessment be done?

USEFUL INFORMATION

Total Mobility [5]

Subsidised taxi and ride-share fares for people who cannot use public transport safely because of an impairment. Eligibility is assessed by an approved agency and subsidies vary by region.

Equipment and home changes

Soon

WHAT WE NOTICED

- Moving around the home safely needs some support.

WHY THIS MATTERS

Rails, shower seats and the right mobility aids are low-cost changes that prevent falls and keep people independent for longer.

WHAT TO DO NEXT

- ☐ **Fit bathroom rails and a shower seat** · Within a month · Family

The bathroom is the most common place for falls at home.

WHO MAY BE ABLE TO HELP

Occupational therapist · Equipment suppliers · Builder for rails and ramps

QUESTIONS WORTH ASKING

Occupational therapist

- Which equipment is funded, and which would we need to buy?

OPTIONS THAT MAY SUIT

Shown because they match Arthur's criteria, not as recommendations. Sample providers for testing.

Able Living Equipment

Matches: Location: Manawatū-Whanganui; Availability: vacancy or capacity now

EPOA and legal planning

Plan ahead

WHAT WE NOTICED

- Both Enduring Powers of Attorney are in place.

- There is no advance care plan recording Arthur's wishes.

WHY THIS MATTERS

An EPOA can only be made while a person can still understand it. Without one, the family may need to apply to the Family Court to make decisions, which takes time and money.

WHAT TO DO NEXT

- ☐ **Start an advance care plan** · Within 3 months · Arthur with the GP
Talk with Arthur and the GP about what matters most, and write it down.

WHO MAY BE ABLE TO HELP

Lawyer or trustee company · GP (for capacity questions) · Te Tari Kaumātua Office for Seniors

QUESTIONS WORTH ASKING

Lawyer

- What does Arthur need to set up both EPOAs, and how long will it take?

GP

- Is Arthur able to make and sign an EPOA now?

USEFUL INFORMATION

Two kinds of EPOA [2]

One covers property and money, the other covers personal care and welfare. A welfare EPOA only comes into effect if the person is assessed as no longer able to make decisions.

Advance care planning [3]

An advance care plan records what matters most to a person about future care, so family and clinicians can follow their wishes.

OPTIONS THAT MAY SUIT

Shown because they match Arthur's criteria, not as recommendations. Sample providers for testing.

Seniors' Legal Clinic (community law)

Matches: Location: Manawatū-Whanganui; Availability: vacancy or capacity now

Financial considerations

Plan ahead

WHAT WE NOTICED

- Arthur owns their home, which affects subsidies and how a move could be funded.

WHY THIS MATTERS

Retirement villages and residential care have very different costs and contracts. Understanding them early avoids rushed decisions.

WHAT TO DO NEXT

- ☐ **Write a simple money snapshot** · Within a month · Family or EPOA attorney

List income, savings, regular costs and the value of the home, so options can be compared.

WHO MAY BE ABLE TO HELP

Financial adviser · Lawyer · Free budgeting services

QUESTIONS WORTH ASKING

Financial adviser

- How would each option affect Arthur's income and assets over five years?

Social connection

Plan ahead

WHAT WE NOTICED

- Arthur sees people less often than before.

WHY THIS MATTERS

Loneliness affects mood, memory and physical health. One regular activity each week makes a real difference.

WHAT TO DO NEXT

- ☐ **Find one regular weekly activity** · Within 2 months · Family

A club, class, church group or day programme that Arthur would enjoy.

- ☐ **Check hearing and eyesight** · Within 3 months · Arthur with family

Untreated hearing or vision loss often makes social contact harder.

WHO MAY BE ABLE TO HELP

Age Concern · Local community groups · Church or cultural groups

USEFUL INFORMATION

Visiting services [6]

Age Concern runs visiting and social programmes for older people in many parts of New Zealand.

Emergency planning

Plan ahead

WHAT WE NOTICED

- In an emergency, responders may not know Arthur's medicines or who to contact.

WHY THIS MATTERS

A one-page emergency sheet and a backup carer plan save precious time when something unexpected happens.

WHAT TO DO NEXT

- ☐ **Make a one-page emergency sheet** · Within 2 weeks · Family

List medicines, conditions, allergies and contacts, and keep it on the fridge.

WHO MAY BE ABLE TO HELP

Family · GP · Pharmacist

USEFUL INFORMATION

Emergency kits ^[7]

Get Ready explains how to prepare a household emergency plan, including medicines and mobility needs.

Action checklist

Tick actions off as they are done. Your navigator can update the plan with your progress.

Now

- ☐ List the daily tasks that need help · This week
- ☐ Ask the pharmacy about blister packs · Within 2 weeks
- ☐ Compare private home support while waiting · Within a month
- ☐ Ask the GP for a NASC referral · This week
- ☐ Prepare for the assessment · Before the assessment
- ☐ Ask for a discharge planning conversation · Before discharge
- ☐ Confirm support is in place for the first two weeks · Before discharge
- ☐ Check medicines against the discharge letter · First day home
- ☐ Book a GP falls review · Within 2 weeks

Soon

- ☐ Arrange a personal alarm · Within 2 weeks
- ☐ Walk through the home for hazards · Within a month
- ☐ Start a strength and balance programme · Within a month
- ☐ Ask for an occupational therapy home assessment · Within a month
- ☐ Check current entitlements · Within a month
- ☐ Check eligibility for Total Mobility · Within a month
- ☐ Fit bathroom rails and a shower seat · Within a month

Plan ahead

- ☐ Start an advance care plan · Within 3 months
- ☐ Write a simple money snapshot · Within a month
- ☐ Find one regular weekly activity · Within 2 months
- ☐ Check hearing and eyesight · Within 3 months
- ☐ Make a one-page emergency sheet · Within 2 weeks

We can help you carry this out

Kinfield Navigator can help your family work through this plan: making calls, preparing for assessments and appointments, comparing options and updating the plan as things change.
